

That is the pain I feel every time Betsy DeVos speaks!

She has NO experience with public schools.

- NOT as a parent
- NOT as a teacher
- NOT as a lunch lady

Since her appointment she has sought to increase vouchers and push money to private schools. Most recently her policies have sought to divert Covid-19 relief funding for schools to private, religious colleges to keep them afloat.

I can't live with these policies and I think many of you will agree. Will you help replace Betsy DeVos with a competent, reasonable and experienced leader?
