

ESSER

Allocations to LEAs in Nevada

Across all three federal laws (CARES, CRRSA, and ARP), SEAs must use at least 90 percent of their grant awards to make subgrants to LEAs in proportion to the amount of funds that each LEA received under Title I, Part A in the most recent fiscal year.

minimum NDE distribution to LEAs

ESSER I Fund	\$105,466,541
ESSER II Fund	429,590,194
ARP ESSER Fund	964,798,553
Total, ESSER	\$1,499,855,288

GEER

Allocations to Nevada

Both the CARES Act and CRRSA Act provided funding to Governors through the Governor’s Emergency Education Relief (GEER) Fund. The U.S. Department of Education is required to allocate 60 percent of the funds based on each state’s relative population of individuals aged 5 through 24, and 40 percent based on each state’s relative number of children counted under the Title I, Part A formula.

GEER I Fund	\$26,477,349
GEER II Fund	12,009,992
Total, GEER	\$38,487,341

GEER funds may be used by the Governor of Nevada in support of public elementary and secondary education, institutions of higher education (IHEs), or other education-related entities. A Governor has wide discretion in determining the entities in the State that will receive GEER funds. A Governor can choose to fund only LEAs, only IHEs, only education-related entities, or any combination of eligible entities.

Federal Relief Funding for K-12 Education

Overview

The Nevada Department of Education (NDE) continues to partner with district and school leaders, K-12 education stakeholders, and State and federal officials to lead the education sector’s response to and recovery from COVID-19. As with all of our work, our COVID-19 response is grounded in our values as defined in our [Statewide Plan for the Improvement of Pupils](#): equity, access to quality, success, inclusivity, community, and transparency. In accordance with our values and in partnership with the State Board of Education, NDE identified and has aligned its COVID-19 response and recovery – including the allocation of relief funds – to the following priorities established in April 2020, which have been updated to address learning loss as we shift from COVID-19 response to recovery and renewal:

1. Closing opportunity gaps for students who have been traditionally underserved
2. Safe, efficient, and equitable re-opening of school buildings
3. Access to technological capacity for educators, students, and families
4. Social and emotional support of students in response to COVID-19
5. Access to high-quality professional development for educators in addressing learning loss
6. Access to high-quality instructional materials for educators and students to help address learning loss
7. Support of parents, families, and communities
8. Access to adult education and workforce development opportunities

The tables below include a summary overview of the federal relief funding provided to school districts and the State Public Charter School Authority (known as local education agencies or LEAs) through the Coronavirus Aid, Recovery, and Economic Security (CARES) Act, the Coronavirus Response and Relief Supplemental Appropriations (CRRSA) Act, and the American Rescue Plan (ARP) Act.
