REACH FOR THE STARS FOUNDATION

February 2024

To Whom It May Concern:

The Nevada State Education Association Reach for the Stars Foundation, in partnership with elected leaders and community members, is pleased to offer scholarships to those applicants who are selected. The RFTS Foundation supports DACA and Desert Pines students pursuing a degree in education and highly encourages these students to apply. However, the RFTS Foundation supports all education, so the application process is not limited to education students.

To apply for RFTS Foundation's "**Loretta Harper Reach for the Stars**" scholarship, candidates must be a graduating senior or must have previously graduated from a Nevada public high school. Candidates must be enrolled or enrolling in a Nevada accredited:

- community college,
- 4-year university,
- career technology institution.

Enclosed you will find the application for the scholarship. Please feel free to duplicate these. We are asking that you distribute these to all qualified candidates. The deadline for applications is March 29, 2024. Applications are also available online at www.nsea-nv.org, by clicking on "Member Center" and then "Scholarships".

NSEA is excited to reach out to our state in a positive effort to increase the skills and talents of our present and future workforce. The scholarships will be awarded in April 2024. If you have any further questions, please contact Lisa Guzmán, Executive Director of Reach for the Stars Foundation, at (702) 733-7330, extension 5020.
